distributed to 13 GIEs.

100 butane gas
cylinders distributed
across 3 island villages.

32 persons from 16
island groups trained
in improved stove
manufacturing
techniques.

3 energy shops
operational in 3
island villages.

Reduced use of
mangrove wood and
creation of income-
generating activities.

Savings and access to loans : the GECCOM model

+10,700 People

people involved
in GECCOMs

+395 GECCOM

active GECCOMs
(formal and informal - Saloum,
Casamance, Guinea-Bissau)

150 Groups

currently being structured
into cooperatives (in the
Saloum and Casamance)

- Groups operating with clear rules: annual cycle, weekly meetings, monitoring tools.
- Capacity building: financial management, leadership, simplified accounting.
- Gradual formalisation of these local economic dynamics through cooperatives.
